

It's hot. It's dry.
Ha! What a perfect time for a challenge.

A Summertime Birding Fundraiser!

Yep, those crazy staff biologists (Co-Directors Duncan & Lyla) are going to take on the "dog-days" of summer to raise some timely funds for MFS.

WE are up to the challenge of a **Summertime** Big-Sit.

How about **YOU**?

Together with YOUR support we can extend the incredible remodel which is currently taking place on Malcolm Hall (our main education and administrative building). The new energy-efficient windows and insulating siding (Hardi-board) is more than halfway completed. But why stop there?

Please Help Us Keep This Momentum Rolling!

Why not some new flooring for the office and bookshop, or museum and A.V room?
Can we extend the fire-resistant siding to the popular kitchenette buildings?

Think of the possibilities...

What high-value, energy-saving and highly visible positive changes we can achieve!

Here's how YOU can help make it happen:

SPONSOR US:

Let us know your pledge per species amount (for example \$1 or \$2 per species^{*}).
We will try our best to observe as many birds as we can from the Station roof deck.

However, our challenges are:

- 1) reduced number of migrants and less water than in springtime
 - 2) we won't be able to stay in the full sun as long so it will be of a shorter duration.
- Our goal is to reach **fifty**, instead of seventy (in May), over the day.

Please contact us TODAY!

We will be doing our **BIG-SIT** in the next 10 days so we **NEED** your sponsorship this **WEEK!!**

- **Email** us with your pledge amount (preferred method)
- **Call us** at (541) 493-2629 with your pledge amount (office phone with answering machine). Please be sure to give us the best way to contact you also.

***BONUS:** If you sponsor us for \$1 or more, your name will be put into a drawing for an original plein-air landscape painting by Lyla!
